### International Students

Employment of international students is subject to federal regulations and special restrictions may apply.

Students on F-1 or J-1 visas who are registered full time (for undergraduate students, a minimum of 12 credit hours; for graduate students, a minimum of 9 credit hours and concurrently holding an assistantship, or certified full time) may work on campus without special work authorization from the Office of International Student and Scholar Services (ISSS) or U.S. Citizenship and Immigration Services.

International students are allowed to work a maximum of 20 hours per week when classes are in session, with additional hours permitted during semester breaks. International students are advised to work 20 hours or less per week during short breaks (i.e., fall and spring breaks) and holidays because of the risk of miscalculating hours worked and exceeding the allowed limit. International students with multiple appointments are responsible for ensuring that their total combined hours do not exceed the maximum of 20 hours per week for all university employers. Exceptions to the 20 hour limit are
possible during the summer and semester breaks; refer to Student Employee Maximum Weekly Hours Exceptions Calendar.

Questions relating to the employment of international students, tax withholding, and applying for a social security number should be directed to the International Employment Unit of Human Resources (HR).

**Federal College Work Study Program**

Students participating in the Federal College Work Study Program:

- must be a US citizen or a permanent resident
- may work up to 12 hours per week while classes are in session
- may work up to 29 hours per week during breaks and holidays provided they perform necessary work duties, and funds are available to accommodate the hours.

The *Criteria for Student Positions on the State and RF Payrolls* chart does not apply to the Federal College Work Study payroll. The *State Student Assistant and Federal Work Study Payroll Calendar* and other information pertaining to the Federal College Work Study Program may be found on the HR website.

**University at Buffalo Foundation**

Students paid through the University at Buffalo Foundation (UBF) payroll receive their direction and control from the university, therefore, state rules apply. Two pay codes are used for students paid through UBFA: student and graduate student, and within these two pay codes, there are multiple titles. The Procedures outlined for the employment of students on the state payroll apply to students who receive payment through UBFA.

**Non-SUNY Student Employees**

Non-SUNY (i.e. private colleges and high school) students are eligible to work as regular, hourly employees in accordance with the university’s Recruitment Policy. Individuals under the age of eighteen years are eligible to work as a regular, hourly employee in accordance with the university’s Recruitment Policy provided they have working papers. Individuals under the age of seventeen years must also be hired in accordance with the university’s Child Protection Policy.

**APPLICABILITY**

This policy applies to all students employed by the University at Buffalo, the Research Foundation, and the University at Buffalo Foundation.

This policy does not apply to students receiving stipends or those on fellowship appointments related to their academic programs; these individuals are not required to render services and are not considered employees.

**DEFINITIONS**

**Academic Good Standing**

A student making acceptable progress toward a degree and eligible to register for and pursue academic coursework at the university for the current semester.
Certified Full Time

These exceptions include reduced course load due to medical condition, academic difficulty, or final semester.

International Student
