

Each unit has a map specific to them, all based on the university-wide map.

Unit and division-specific maps were developed through the following steps:

1. Filling in the attributes.
2. Matching up each attribute with a benefit.
3. Filling in the supporting points for each attribute and benefit.
 - Ideally, attributes and benefits match up one for one, but it's not mandatory.
 - It's possible to have multiple supporting points for a single attribute or benefit.
