

NCBI Informatics Workshop

Posted on 09/03/12 at 10:16 am

Bioinformatics@HSL, UB Libraries has arranged for NCBI to come to UB to give us hands-on computer workshops. The announcement we are sending follows below. Feel free to pass it around to whomever you think might be interested.

Bioinformatics @ HSL, UB Libraries is hosting a workshop given by visiting instructors from NCBI (National Center for Biotechnology Information) for 2-days, hands-on NCBI bioinformatics workshops.

Details:

- Date: September 19-20, 2012
- Location: Health Sciences Library
- Timing: Two workshops sessions per day. Each workshop will consist of a 2.5-hour hands-on sessions.
- Content: Using NCBI resources including BLAST, microarray (GEO), pathways and molecular interactions (BioSystems), Gene, Protein, Structure and much more.

You may attend any combination of topical workshops. The workshops are FREE, but require registration. Space is limited, so register soon.

The workshops are available to UB and UB-affiliated faculty, graduate students, fellows, residents, staff and physicians on all three UB campuses as well as UB-affiliated Centers, Institutes and hospitals.

Full details, a complete schedule, and registration information and links, are available on the HSL Library's Bioinformatics Blog at <http://libweb.lib.buffalo.edu/hslblog/Bioinformatics/?p=658>
