Keynote Address by Isabel S. Marcus, Professor of Law & Co-Founder of the Gender Institute

This year's "Gender Across Borders" symposium will focus on "feminism across generations." It will feature several round-table discussions at which UB faculty and graduate students will present their thoughts about:

* how their research relates to women and gender
* the role that feminism has played in their life and work
* what they've learned from previous generations of feminists
* what they'd like to communicate to their peers and to younger generations
