Posting Detail Information

Position Summary	<p>We are seeking a highly motivated and exceptionally organized research technician with attention to detail for the management of our mutant mouse colonies in a newly established neuroscience laboratory in the Hunter James Kelly Research Institute. We are studying the mechanisms of axonal support by glial cells, and axon degeneration itself, using techniques on the molecular, cellular, and organismal level. The selected candidate will help with maintenance of our mouse models for neurodegenerative conditions. This includes all aspects of animal breeding and organization, tissue collection, genotyping methods (e.g. PCR and electrophoresis), and maintaining electronic records. The candidate must have computer experience, especially with MS Excel. Further, excellent communication and interpersonal skills are required. If you meet these criteria, then please apply to join our team!</p> <p>About UB The University at Buffalo is SUNY's most comprehensive public research university, and an outstanding place to work. UB amplifies ambition for faculty and staff by offering endless possibilities to achieve more. Here, people from all backgrounds and cultures challenge and inspire each other to discover, learn and succeed. Dedicated staff and engaged faculty collaborate to further knowledge and understanding, and develop tenacious graduates who are valued for their talents and their impact on global society. Visit our website to learn more about the University at Buffalo.</p> <p>As an Equal Opportunity Affirmative Action employer, the Research Foundation will not discriminate in its employment practices due to an applicant's race, color, religion, sex, sexual orientation, gender identity, national origin and veteran or disability status</p>
Minimum Qualifications	<p>Associate's degree, or two years formal training in subject matter directly related to the project or program and at least 3 years of experience directly related to the project or program, or an equivalent combination of education and experience.</p> <p>Basic knowledge of laboratory animal management and welfare, genetic recombination (e.g. Cre-loxP system), as well as PCR techniques are necessary.</p>
Preferred Qualifications	
Physical Demands	
Salary Range	\$20,000 - \$25,000
Work Hours	28.25 hours week, actual hours TBD
Campus	NYS Center of Excellence and Bioinformatics

Special Instructions to Applicants

Applicants must submit a cover letter, curriculum vitae, and a brief statement of previous research experience.
