Employer	Research Foundation
Position Type	RF Professional
Type	Full-Time
Appointment Term	
Salary Grade	E.8

### Posting Detail Information

<b>Position Summary</b>	<p>We are inviting applications for a Postdoctoral Associate position at the Hunter James Kelly Research Institute in Buffalo, New York State at the University at Buffalo. We (Dr. Daesung Shin) are focusing on basic and translational research of lysosomal diseases and neuroinflammation, using a broad repertoire of innovative methods with various mouse models. Potential projects encompass the development and characterization of novel mutant animal models showing cell autonomous effect of lysosomal enzyme deficiency in both central and peripheral nervous systems, and elucidation of anti-inflammatory mechanisms. Applicants should have demonstrated outstanding performance throughout their previous studies with their own publications. The successful candidate is a highly motivated and exceptionally organized team player with good communication skills.</p> <p>This position is funded by the NIH for 4 years and includes full fringe benefits.</p> <p><b>About UB</b> The University at Buffalo is SUNY's most comprehensive public research university, and an outstanding place to work. UB amplifies ambition for faculty and staff by offering endless possibilities to achieve more. Here, people from all backgrounds and cultures challenge and inspire each other to discover, learn and succeed. Dedicated staff and engaged faculty collaborate to further knowledge and understanding, and develop tenacious graduates who are valued for their talents and their impact on global society. Visit our website to learn more about the <a href="#">University at Buffalo</a>.</p> <p><b>Outstanding Benefits</b> Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit – all in an effort to support your work-life effectiveness. Visit our benefits website to learn about our <a href="#">benefit packages</a>.</p>
<b>Minimum Qualifications</b>	A recent Ph.D. degree with background in molecular and cell biology is essential, and experimentation in mouse genetics and histology are a plus.
<b>Preferred Qualifications</b>	A neuroscientific background is not necessary, but is a plus.
<b>Physical Demands</b>	
<b>Salary Range</b>	\$40,000 - \$50,000
<b>Work Hours</b>	37.5 hours per week
<b>Campus</b>	NYS Center of Excellence and Bioinformatics
