

Alberto Gonzalez

Institute for Myelin and Glia Exploration
MS Biology student, Feltri Lab

Alberto received his BS in Biology and Psychology from the SUNY, University at Fredonia in 2019.

Shortly prior to graduating, he joined the Feltri Lab as a Research Technician in November 2022 while finishing his MS in Biology at SUNY, University at Fredonia.

Mr. Gonzalez is working on a project, under the direction of Dr. Leandro Marziali on a research project funded by the NY Empire Discovery Institute.
