

University at Buffalo Sponsored Projects Services

Services

UB Rates and Facts

From the hard sciences to arts or humanities, we can help calculate tuition costs and institutional overhead when putting together a grant proposal or managing your award.

Prepare and Submit Your Grant Proposal

We help faculty secure research dollars by working with you to develop proposals. We also review and submit your proposals to the appropriate sponsoring agencies.

Administer Your Award

Our team at Sponsored Projects Services will help you navigate the requirements of your research award.

SPS staff members help faculty prepare and manage their research grants whether it's work being done in the labs or in more extreme locations like documenting geological changes in Greenland.

UB's Sponsored Projects Services partners with you to prepare and submit proposals for sponsored funding, and to steward awarded funds, ensuring compliance with applicable regulations and policies.

The following lists help you find your SPS representatives by department.
