**DUAL/COLLABORATIVE DEGREE PROGRAMS**
We offer interdisciplinary programs, which allow students to enhance their academic and post-graduate opportunities.

**JOHN & EDITHA KAPOOR HALL**
The School of Pharmacy and Pharmaceutical Sciences now occupies John and Editha Kapoor Hall – a new and technology advanced science and education building offering students the best in research, teaching and collaborative learning environments.

**PHARMACOMETRICS**
The School of Pharmacy and Pharmaceutical Sciences became the first pharmacy school in the nation to offer a master’s degree in pharmacometrics, a new field that incorporates pharmacologic studies with emergent computer-intensive methods of analyzing clinical trial data. Graduates from this program earn some of the highest entry salaries in the pharmaceutical industry.

**UNITING HEALTH**
The School of Pharmacy and Pharmaceutical Sciences is one of five schools that constitute the University at Buffalo’s Academic Health Center.

**REACHING OTHERS**

**STUDENT OUTREACH**
UB pharmacy students work closely with local pharmacists and pharmacy organizations to promote health and wellness at clinics and health fairs throughout Western New York.

**ADVANCED PHARMACOTHERAPY**
UB faculty are leaders in exploring and advancing new methods of collaborative health care management through medication therapy, patient counseling and integrated health care delivery, improving patient outcomes and decreasing health care costs.

**RESEARCH PARTNER**
A strong alliance with partners such as Pfizer, Lilly and Roche provides funding for research in pharmacokinetics, pharmacodynamics and protein therapeutics.
