QUICK FACTS

The center helps students to:
- Expand their undergraduate learning experience beyond the classroom
- Connect with faculty to find opportunities that match their interests
- Plan for their research or creative projects
- Seek funding for their projects
- Present research findings and creative works
- Locate resources that will help them be successful in their projects

A Competitive Edge

UNDERGRADUATE RESEARCH AWARDS

The Center for Undergraduate Research and Creative Activities offers UB undergraduates the opportunity to apply for Undergraduate Research Awards, established for students who demonstrate a need for funding to complete their research or creative projects. Awards may be used to cover the expense of such essential needs as travel, conference attendance or supplies. The application process gives students valuable grant writing experience, which will help prepare them for the next stage of their career, whether it is in graduate school or the workplace.

BUILDING PORTFOLIOS

Participation in extracurricular research and creative activities helps students become competitive for prestigious regional, national and international scholarships and fellowships. In collaboration with the Fellowships and Scholarships Office, CURCA assists students in gaining the experiences necessary to build their portfolio and pursue these opportunities.
