POINTS OF PRIDE WITHIN UB’S

Partnerships

UB’s Office of Economic Development provides infrastructure that links academic research with commercial interests to facilitate engagement and grow New York State by spurring economic and workforce development.

A LEADER IN ADVANCED MANUFACTURING

UB’s NYS Center of Excellence in Materials Informatics (CMI) leadership and materials science experts were integral to the Buffalo Billion Investment Development Plan recommendation to create a new advanced manufacturing institute. UB’s CMI and this groundbreaking initiative create a hub for advanced manufacturing in the state, complementing the nationwide movement.

UNPRECEDENTED RESULTS

Recognizing the importance of genomic medicine research, Gov. Andrew Cuomo proposed $105 million in funding that will support the advancement of this emerging field. UB’s Center for Computational Research will provide the “big data” resources that will be used by companies like Empire Genomics and the New York Genome Center to facilitate their life-changing work.

UB CENTERS COLLABORATING WITH INDUSTRY

BUSINESS AND ENTREPRENEURIAL SERVICES:
› Center for Entrepreneurial Leadership (CEL)
› NYS Center of Excellence in Bioinformatics and Life Sciences
› NYS Center of Excellence in Materials Informatics
› Office of Economic Development
› School of Management
› The Center for Industrial Effectiveness (TCIE)
› UB Center for Advanced Biomedical and Bioengineering Technology

LABS AND TESTING FACILITIES:
› Center for Computational Research
› Center for Excellence in Document Analysis and Recognition
› Digital Manufacturing Laboratory
› Electrical Engineering Cleanroom
› Institute for Lasers, Photonics and Biophotonics
› Materials Characterization Laboratory
› MCEER
› NYS Center of Excellence in Bioinformatics and Life Sciences

COMMERCIALIZATION:
› STOR (Office of Science, Technology Transfer and Economic Outreach)
› UB Biosciences Incubator

START-UP NY INITIATIVE

UB is one of only eight SUNY campuses participating in Start-Up NY, Gov. Cuomo’s initiative to bring start-ups, out-of-state and expanding businesses to New York by creating state-wide, tax free zones.
