

Two Panel Discussions with the 2012-13 Research Fellows for Grant Development and Research Dissemination Fellows:

Research Fellows discuss Grant Development, Research Dissemination of community-based research projects

Faculty members who received fellowships to develop a grant proposal or work on disseminating their community-based research project will share their experiences and insights in two panels.

Join us as we discuss:

- Developing a grant proposal for a community-based research project
- Ways to disseminate the results of your community-based research, and broaden the impact of your research.

**Friday,
September 27, 2013**
