

The Clean Air Coalition of Western New York, the University at Buffalo's School of Public Health and Health Professions and Civic Engagement and Public Policy Research Initiative (CEPP), invite you to join them for a presentation and discussion.

Building Healthy Environments in Diverse Settings: The Value Added by Community-Engaged Research

Meredith Minkler, DrPH

Professor of Health and Social Behavior,
School of Public Health, University of California-Berkeley
Author of *Community Organizing and Community Building for Health
and Welfare* (2012, 3d ed.)

Dr. Minkler will speak about creating healthy environments, especially for communities that are often overlooked including communities of disability, non-English speaking communities, and environmental justice communities.

She will explore the value and challenges of community-engaged research and the role this work plays in developing healthy environments.
