TELEPHONE USE POLICY

Category: Chief Information Office
Responsible Office: Chief Information Office
Responsible Executive: Chief Information Officer

Summary

Telephones, including both wired (desk phones, including VOIP) and cellular phones issued by the University and paid for by the University are, like all other University assets and services, intended to be used for the purpose of conducting official University business.

Policy

POLICY STATEMENT

As the decision making process for the purchase and distribution of telephone equipment remains a distributed one, the responsibility for the review and compliance with policies governing telecommunications must also be distributed.

BACKGROUND

To assist departments in this role the following guidelines are provided:

- Each department should identify an individual who is responsible for the review and approval of all telephone acquisitions and related expenses.

- The departmental telephone coordinator is responsible for reviewing telephone usage detail records to ensure appropriate use. This includes monthly cellular usage as well as wired phone (including VOIP) usage when asked. Employees should reimburse the University for the costs of any personal calls made on University-sponsored telephones.

- In accordance with the Governors Executive Order #110, employees shall not use hand held mobile telephones while operating state or personal vehicles on public highways when conducting state business.

- The department telephone coordinator should provide a copy of this policy to each employee.

DEFINITIONS

VOIP - Voice Over Internet Protocol refers to communications services such as voice, fax, and voice-messaging that are transported via the Internet, rather than the public switched telephone network.
Applicability of Policy
This policy applies to all University data regardless of its medium and/or form, and to all those who handle University information (faculty, staff, students, third party contractors, and any others).

Policy Review and Update
The Chief Information Officer or his designee will periodically review and update this policy as needed. Questions concerning this policy should be directed to the Office of the Associate VP for Information Technology.

Compliance
Violations of this policy will result in appropriate disciplinary measures in accordance with University policies, applicable collective bargaining agreements, and state and federal laws.
