

Comprehensive Program Review

Program Planning Worksheet

Comprehensive Program Review, conducted by university departments and supported by the Office of Educational Effectiveness, contributes to the university's educational and research mission by ensuring quality assessments and continual improvement of graduate and undergraduate programs. Service Administration

Using this template

Please review your last 5 annual assessment reports. Based on your findings with regard to student achievement of learning outcomes, what aspects of your program are working well? What aspects of your program need to be revised or eliminated? Please use the spaces below to highlight your program's strengths and to outline your plans for implementing any necessary changes.

What aspects of your program are working well that you will continue doing?

Have you identified any new aspects that you will implement to positively impact student learning?

Change for Improvement	
Who will implement change?	
When will this change be achieved?	
What costs or resources will be required for implementation?	
Are there any challenges to implementation?	
How will you know if this change has been successful?
