School of Nursing
Creating Excellence through Education and Research

EDUCATIONAL TRENDS
Home to one of only two public PhD programs in New York State, the UB School of Nursing is working to address the shortage of nursing faculty and nurse researchers. The school received a $1.47 million Health Resources and Services Administration Advanced Nursing Education grant enabling it to implement a new distance learning component with the existing PhD program. Additionally, the School of Nursing is offering completely asynchronous, distance learning in the RN-BS and Post-MS to DNP programs.

EMERGENCY PRACTICE
Students begin their training on high-tech patient simulators that allow them to practice life-saving techniques without putting real patients at risk. The simulators look and act just like real people and can be programmed to replicate a wide range of health problems. This technology helps students build confidence and prepares them for numerous emergency situations that they might not encounter otherwise until out of the classroom.

RESEARCH FOCUS
The school aims to integrate scholarly teams to promote faculty research and scholarship in select focus areas. Current teams include Biobehavioral Quality of Life Across the Lifespan Oncology Team, Dedicated Education Unit Team, Health Services Research/Workforce Group, The Institute for Person-Centered Care Team, Promoting Health and Reducing Risk in Psychiatric Mental Health and Addictions Team, Promoting Wellness Across the Lifespan Team, and the Sleep Research Team.

POST BS & MS TO DNP PROGRAMS
› Adult-Gerontology NP
› FNP
› PMHNP
› Nurse Anesthetist

POST MS TO DNP PROGRAMS WITH DL OPTION (OPEN TO ALL SPECIALTIES ABOVE PLUS)
› Adult CNS
› PNP
› WHNP

POST BS & MS TO PHD PROGRAMS WITH DL OPTION

ACCREDITATIONS (THROUGH 2020)
› CCNE
› COA
› NYS Dept. of Education

HONOR SOCIETY
› Sigma Theta Tau International Nursing Honor Society-Gamma Kappa Chapter

Reaching Others

HEALTHY YOUTH
Students partner with faculty to organize health fairs and special-focus events in local schools to promote healthy youth. Also, along with the School of Dental Medicine, nursing students and faculty participated in the “Teddy Bear Clinic,” a wellness event for Head Start children.

SERVICE LEARNING AND GLOBAL INITIATIVES
Students participate in service learning through volunteer activities at community outreach programs such as Habitat for Humanity, Buffalo City Mission, “UG Saturdays of Service”, Food Bank of WNY, and Project Naomi. Multicultural and international enrichment opportunities are also available.

FLU CAMPAIGN
The UB School of Nursing partners with the Visiting Nursing Association of Western New York and the Catholic Health System in their influenza campaigns, assisting with clinics on campus and throughout the community.

EDUCATIONAL TRENDS
UNDER NURSE RESEARCHERS
Home to one of only two public PhD programs in New York State, the UB School of Nursing is working to address the shortage of nursing faculty and nurse researchers.
