

Cultural Anthropology PhD students Linguistics and Statistical Requirements.

Cultural Anthropology PhD students have three options (in consultation with their advisor) regarding linguistics and statistics:

A: two linguistics courses OR

B: one linguistics course and one statistics course OR

C: two statistics courses (See Graduate Student Handbook for list of possible statistics courses)

Both APY521 (Linguistic Anthropology) and APY543 (Cognitive) count towards the linguistics requirements.

In order for you to get credit towards these requirements, fill in the information below, have your advisor sign it then return it to the Anthropology Graduate Program Secretary.

(Print) Student Name: _____
