

**HERE.
AND
ONLY
HERE.**

WE ARE WHO WE ARE BECAUSE OF WHERE WE ARE

The University at Buffalo and the city of Buffalo are inseparable—**shaped by reinvention, grit and a determination to build for what's next.**

UB was founded as a small medical school in a booming industrial city fueled by the Erie Canal and the hydroelectric power of Niagara Falls. As Buffalo evolved, so did we, growing into New York's flagship university. Now, in a revitalized city, we're developing lifesaving healthcare innovations, launching ambitious startups, and leading the next wave of technological advancement through artificial intelligence—across a wide range of fields—for the public good.

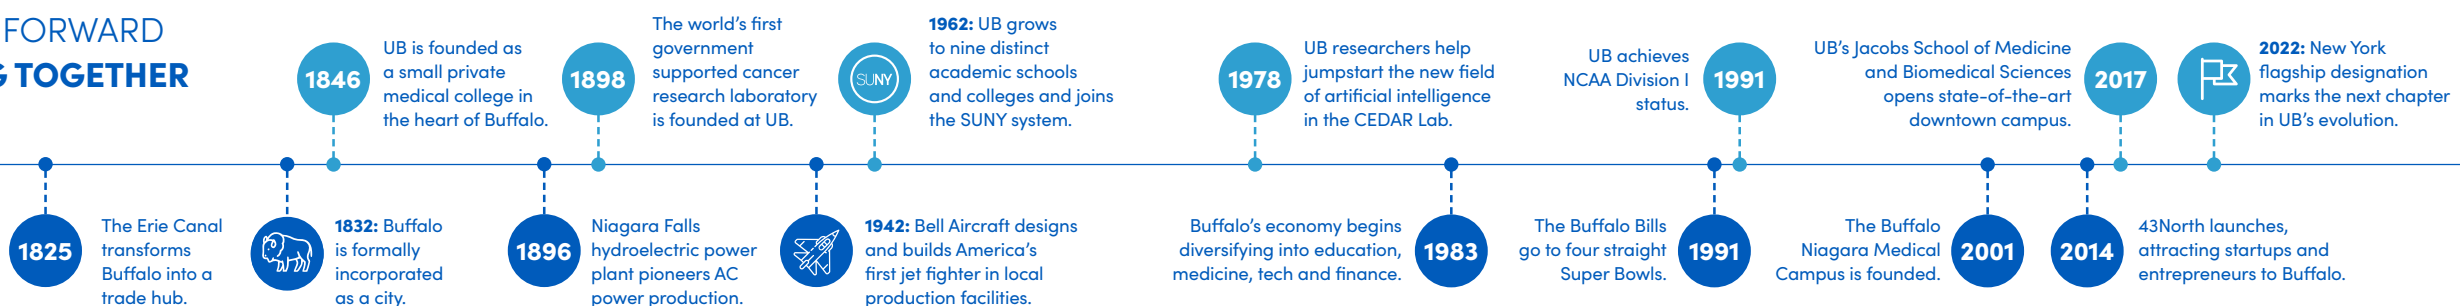

Behind it all are people who show up, stay curious and keep pushing forward—builders, researchers, artists, students and neighbors united by tenacity, humility and the knowledge that progress is earned. That shared resolve is **the Buffalo mindset**, and you only find it here.

LOOKING FORWARD EVOLVING TOGETHER

UB HISTORY

BUFFALO HISTORY

GLOBAL REACH GROUNDED PERSPECTIVE

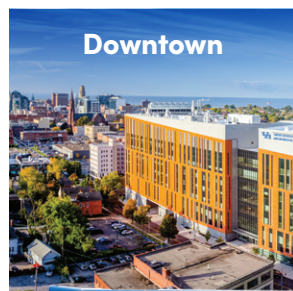

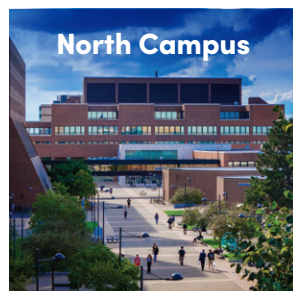

At UB, global thinking starts with connection. We collaborate with partners around the world, contributing to work that addresses some of today's most complex challenges. Spanning continents, disciplines and institutions, our research tackles questions that cross borders and shape lives worldwide.

At the same time, our perspective is rooted in place—at the crossroads of the U.S., Canada and the Great Lakes—and deeply connected to New York State, Western New York and the city of Buffalo. Our unique location keeps our research and work connected to real communities and lived experiences, and students see the impact reflected every day at UB.

Being part of a large research university like UB doesn't mean getting lost in the crowd. Classes are small enough for conversations to carry beyond the classroom. Professors know your name, advisors know your goals, and classmates become collaborators. You don't have to choose between opportunity and belonging. Here, ambition is matched with attention. Much like Buffalo itself, we value effort over ego and believe success comes from knowing and supporting one another.

3 UNIQUE CAMPUSES IN WESTERN NEW YORK

Travel between campuses in just minutes on our free UB Stampede shuttles.

Rooted in WNY. Built for possibility.

Whether it's nature, culture, food or fellowship, we have it all, plus an assortment of only-in-Buffalo charms. With a lower cost of living than that of many major cities, students can take advantage of everything the region has to offer while making the most of their college experience.

Just a 20-minute drive from Niagara Falls and a 90-minute flight from major cities like Boston and New York City, Buffalo is a place where you can make connections and make your mark.

PUBLIC IMPACT FOR REAL

NOT JUST FOR PRESTIGE

At UB, impact is measured by healthier communities, more sustainable systems, and more effective approaches to learning, building and caring for one another. We produce discovery at scale, delivering new tools that serve society—not just institutions.

This is impact
with purpose,
and progress
with people at
the center.

400+
startups

**TOP 25 BEST
GREEN COLLEGES
IN THE U.S.** — College Consensus

The National AI Institute for Exceptional Education
at UB is harnessing AI to help speech-language
pathologists reach more children who need support.

Realizing AI for good

UB is home to Empire AI, New York State's groundbreaking AI research consortium focused on ethical, human-centered solutions that benefit society. At the center is one of the world's most powerful academic supercomputers, accelerating innovation while running on renewable electricity and repurposing heat in campus buildings.

\$500M+ INVESTMENT IN
EMPIRE AI AT UB

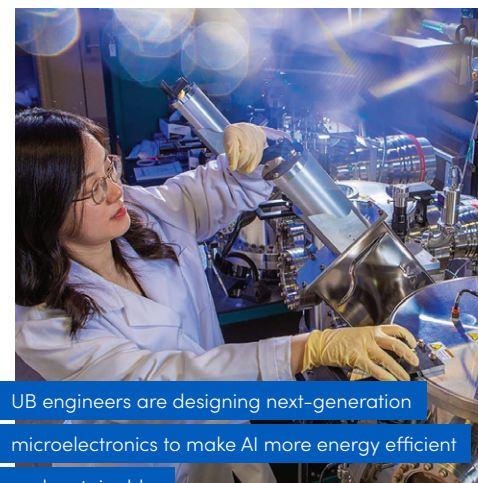

UB researchers developed the Buffalo Concussion
Treadmill Test (BCTT), used worldwide to evaluate
sport-related concussions and guide rehabilitation.

Breakthroughs for everyday life

From developing the implantable pacemaker and revolutionizing stroke treatment to pioneering handwriting recognition for the postal service, UB research continues to improve everyday life in Buffalo and around the world.

\$571 MILLION IN ANNUAL
RESEARCH SPENDING

UB engineers are designing next-generation
microelectronics to make AI more energy efficient
and sustainable.

Science in service of the planet

Our research is helping build a healthier, more sustainable future—from clean energy engineering to addressing biodiversity loss on a global scale. That commitment has placed UB among the nation's top universities for sustainability and social impact.

ROOM TO BECOME

The Blueprint Fashion Organization, a student club
dedicated to creating a vibrant, inclusive fashion community,
presents a flash mob fashion show in the Student Union.

500+ STUDENT CLUBS AND
ORGANIZATIONS

You don't have to arrive at UB
with everything figured out.

What matters is curiosity and
being in a place that gives you
room to explore who you are
and who you want to become.

UB makes that exploration possible in a way few
places can. Our collaborative culture encourages
students to reach across academic disciplines, while
clubs, projects and teams connect you with people
and ideas outside your major. With endless ways to
combine your interests and passions, you'll discover
opportunities you never expected, opening doors
to career paths you didn't even know existed.

Here, the goal isn't to arrive at a fixed version of
yourself. It's to keep growing, evolving and becoming
the best version of you today, with the resolve to be
even better tomorrow.

Students have access to **over 700**
study abroad opportunities.

100%
OF FIRST-YEAR STUDENTS
CAN GET INVOLVED IN
RESEARCH, SERVICE OR
EXPERIENTIAL LEARNING

Where opportunities **begin earlier.**

Think of UB and Buffalo as your incubator. Our lower cost of living reduces pressure and opens doors, while a connected campus community and city make it easier to explore opportunities sooner. Create a student club. Join a community organization. Build experience through internships, interdisciplinary research, hands-on learning or work-study. Find support for your ideas in spaces like the Office for Undergraduate Research, Career Design Center or the Startup and Innovation CoLab. Learning here isn't about getting it right the first time. It's about failing forward—with faculty, staff and peers who support experimentation, encourage iteration and help turn uncertainty into confidence.

*Choosing UB helped me become
Someone who felt confident in
not only my academic
abilities, but also my abilities
outside the classroom.*

GUIDED BY EXPERTS

From your first class to graduation day, you'll learn alongside world-renowned faculty who are experts in their fields and dedicated to helping their students succeed. With a collaborative learning environment and opportunities to connect closely with professors, you'll gain perspective, knowledge and confidence.

SUPPORTED BY COMMUNITY

Beyond the classroom, you'll find communities that support your success. You might deepen your learning through the Honors College, the oldest in the SUNY system; find connection and guidance as a first-generation student through Proud to Be First; or access academic and personal support through the Arthur O. Eve Educational Opportunity Program (EOP). These are just a few of the many ways to find your place within UB—wherever you're starting from and wherever you want to go.

ELEVATED BY CHOICE

Expand your academic journey your way. Undecided students get personalized guidance and resources through the Major Explorers program. Add a second major, pursue a minor, or build in-demand skills with certificates and micro-credentials to help you reach your goals.

110+ COMBINED DEGREES

Get further, faster. Combined degree programs let you earn both your bachelor's and a graduate degree in less time. That means lower costs, fewer years in school and a head start on your career.

TRUE BLUE

STARTS WITH BELONGING

UB's energy comes from **the people** who fill its classrooms, quads, arenas and gathering spaces.

Students arrive from everywhere and quickly find they belong here. Inspired by Buffalo's city-of-good-neighbors spirit, UB is a place where support is genuine, community is close-knit and belonging grows naturally. When

you're here, life is shaped around you—
your passions, your choices and
your connections.

ACCESS

WITHOUT TRADEOFFS

Opportunity at UB isn't something you work up to. It's something you step into from day one. Students engage in faculty-mentored research, hands-on learning, community projects and professional experiences from the start—testing ideas, building skills, and discovering what they care about by doing the work, not just studying it.

At many institutions, access like this is limited. At UB, it's widely available. As New York's flagship university, we are committed to expanding opportunity and we are priced to keep it that way. Our low cost of attendance helps remove financial barriers and reduce debt, putting a top 40 public university education within reach for more students.

COST OF ATTENDANCE

	NYS Resident	Out-of-State	F-1/J-1 International
Tuition	\$7,070	\$29,070	\$29,070
Fees	\$3,966	\$3,966	\$6,466 ³
On-Campus Housing and Dining Allowance ¹	\$18,606	\$18,606	\$18,606
Estimated Related Expenses ²	\$6,888	\$6,888	\$6,888
Total	\$36,530	\$58,530	\$61,030

These costs are estimated and subject to change without notice. For the most up-to-date estimated cost information, visit buffalo.edu/financialaid.

¹ Based on a double occupancy room in an on-campus residence hall and the Flex 19 meal plan.

² These costs are based on 2026-27 estimates that include books and supplies, transportation and personal costs that vary by student.

³ Fees for F-1 and J-1 visa holders include the International Student Fee and SUNY Health Insurance.

EXCELLENCE + AFFORDABILITY = VALUE

Supported by affordability, Buffalo's low cost of living and a global alumni network, UB students graduate with more than a degree. They leave with confidence, experience, connections and the skills to make an impact wherever they go next.

I'm working on research projects I never thought I'd have access to as an undergrad.
