Associate Dean for Medical Education, Jacobs School of Medicine and Biomedical Sciences
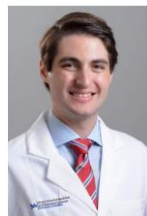

MATTHEW KAYE, MD
Chief Resident BGMC and ECMC

EFFECTIVE TEACHING WORKSHOP SERIES

Unlocking Backward Design for Critical Thinking: Crafting Effective Learning Objectives and Assessments

Learning Objectives:

- Develop an understanding of the role backward design plays in the curriculum development process.
- Explain what backward design is and why it is important.
- Describe the stages of backward design.
- Describe the levels of Bloom's taxonomy and develop learning objectives to promote higher order thinking.
- Discuss the importance of learning objectives to support student learning, and key principles in their development.
- Describe the importance of aligning assessments with objectives using the backward design process.

Workshops are self-contained modules and are free of charge to everyone in the Buffalo Translational Consortium. Those who attend all workshops will receive a CTSI Certificate of Completion. Learners can also earn a digital badge upon completion of all workshops and weekly assignments if desired. Digital badges allow learners to showcase their enhanced knowledge of Effective Teaching within digital resumes, e-Portfolios or LinkedIn accounts.

DATE: Thursday, February 1, 2024
TIME: 4:00 – 5:30 PM
PLATFORM: Zoom
REGISTRATION: https://buffalo.zoom.us/meeting/register/tJckdeuurT8jE9GLDrtWUDC1fGWqHvKegm4Y
