RESPONSIBLE CONDUCT OF RESEARCH WORKSHOP SERIES

Responsible Data Acquisition and Management

This workshop will teach learners how to acquire, handle and publish on sensitive health data including Protected Health Information. They will learn the risks and punishments for a data breach. We will also investigate how to write IRB applications that respect autonomy and display best practice in data management and security. We will use case studies to emphasize pitfalls that researchers and research staff can fall into that would lead them unknowingly to be complicit in a data breach.

DATE: Tuesday, April 11, 2023

TIME: 5:00 – 7:00 PM

LOCATION: Online via Zoom

REGISTER NOW: <https://bit.ly/3yVDks5>
