Vaccine Chats with School Communities

What: UB's Genome, Environment and Microbiome Community of Excellence is available to host conversations with the community about the COVID-19 vaccines.

When: We will work with your schedule to schedule a time. Conversations are structured to be 30 minutes to 1 hour.

Who: Anyone who would like to learn about vaccines, specifically the Covid-19 vaccine. This may be a K-12 class, Family STEM activity, Saturday Academy, or teacher group. We are prepared to host conversations with all ages.

How: Contact Dr. Sandra Small, sksmall@buffalo.edu, to schedule a conversation.
