

Anthony Graham

Institute for Myelin and Glia Exploration
Administrative Assistant
Feltri/Wrabetz Labs

Anthony Graham received his high school diploma in 2012. He graduated and immediately started working in casino operations and casino regulations and compliance. After working at the Seneca Gaming Corporation, he transferred to healthcare customer service and claims processing. He then returned to the casino industry for various management roles. Currently, he is an Administrative Assistant for the Feltri/Wrabetz Labs at the Institute for Myelin and Glia Exploration, joining the Institute in August 2021.
