

Emma R. Wilson

Post-Doctoral Research Scientist, HJKRI, Feltri Lab

Dr. Wilson obtained her Bachelor's of Science in Biomedical Sciences, from University College London, England in 2013.

A PhD in Neuroscience was awarded to Emma after her work from 2013-2017 in exploring the pathomechanisms underlying Hereditary Sensory Neuropathy type 1 under the supervision of Professor Linda Greensmith, Professor Mary M Reilly and Dr Bernadett Kalmar at the Institute of

Neurology, University College London, England.

In 2017, she joined the Feltri Laboratory, HJKRI, as a Post Doctoral Research Scientist studying the roles of prohibitins in myelination during development and disease.
