

Hongjoo An

Institute for Myelin and Glia Exploration
Ph.D Student, Park Lab

Hongjoo An obtained his Bachelor of Science in Bio-Technology, from Yonsei University, Seoul, Korea in 2006. His advisor was Dr. BaekLin Seoung.

A Master of Medical Science was awarded to Mr. An after his work from 2006-2008 in the Department of Biochemistry and Molecular Biology in Seoul National University, College of Medicine, Seoul, Korea. His mentor was Dr. SangChul Park.

In 2009, he joined the Aging and Apoptosis Research Center (AARC), Seoul, Korea. Followed in 2011, with transferring to the University of Texas Medical Branch, Galveston, Texas, USA, in the Division of Neuroscience and Cell Biology, then in 2012 to UT's Department of Molecular Bioscience, Institute of Cellular and Molecular Biology.

Hongjoo has worked as a researcher at Emory University, Atlanta, Georgia, USA, in the Division of Cardiology, School of Medicine, from 2014 -2017. Then he returned to UT's Health Science Center, San Antonio, Texas, USA, in the Department of Cell Systems and Anatomy, at the Greehey Children's Cancer Research Institute

Hongjoo An joined the Park Laboratory as a Research Technician at the Institute for Myelin and Glia Exploration, at the University of Buffalo, New York, USA in September 2017 until August 2019.

As of the Fall 2019 semester, Mr. An is currently working as a Ph.D. student, Program in Biomedical Sciences (PPBS), University at Buffalo's Department of Neuroscience, again as part of the Park Lab.
