

Joseph Gawron, MS

Institute for Myelin and Glia Exploration
Research Technician

Joseph Gawron received his B.S. degree in Biology from Canisius College in 2013.

In 2015, Gawron completed his Master of Science degree in Biotechnology from the University at Buffalo, with a thesis titled “Silencing the Overexpression of the Ubiquitin-Conjugating Enzyme E2B in Murine Erythroleukemia Cells.”

Currently he is a research technician for the Feltri Lab at the Institute for Myelin and Glia Exploration.
