

Leandro Marziali

Institute for Myelin and Glia Exploration
Post-Doctoral Research Scientist, Feltri
Lab

Dr. Marziali received his degree in
Biochemistry from the University of Buenos
Aires in 2009, Buenos Aires, Argentina.

In 2010, he joined the laboratory of Dr. Juana
Pasquini at the School of Pharmacy and
Biochemistry of the University of Buenos Aires
(IQUOFIB-CONICET). He worked in his PhD

project involving the study of the combined effects of Transferrin and Thyroid Hormone on CNS myelination and oligodendrocyte maturation. In April 2016, he received his PhD in neuroscience.

In May 2016 was appointed as Postdoctoral Research Scientist in Dr. Feltri's laboratory at the Institute for Myelin and Glia Exploration for studying the role of p38gamma on myelination and oligodendrocyte maturation.
