

Robert Loren

Institute for Myelin and Glia Exploration
Research Technician II, Beirowski Lab

Robert Loren is a 2015 Cornell University graduate with a B.S in Biological Sciences.

In 2015 and until the end of 2016, Robert worked as Research Technician in Dr. Bogdan Beirowski's laboratory at the Institute for Myelin and Glia Exploration. In April 2018, he was reappointed as a Research Technician. His duties in the Beirowski lab include: maintaining

transgenic mouse lines, PCR genotyping, and more.
