

# AN ANTHOLOGY OF RECOGNITION

The Second Annual Salute to UB Authors

 **University at Buffalo** *The State University of New York*

# PREFACE

FROM  
JOHN B. SIMPSON  
*President*

AND  
SATISH K. TRIPATHI  
*Provost and Executive Vice President for Academic Affairs*

To all of the faculty members whose scholarship we celebrate today: we congratulate you on your achievements, and we are made better by your insights.

Certainly, your published work adds to the global body of knowledge – an accomplishment of great significance in itself. But this alone does not adequately convey the import of your scholarly contributions, or the scope of their impact.

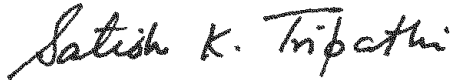

Through your inquiry and endeavors, you embody our university's core mission as a public research university: to contribute in lasting ways to the greater public good.

Your achievements prove that the best scholarship is, at its heart, an act of community-building. Your theories make possible new ways of thinking about problems, some that are as old as humanity itself. And your innovations help to improve the quality of life for individuals and communities the world over.

Thank you for your unique insights, congratulations on your achievement in publishing them, and best wishes for your continued success in your scholarly pursuits.

John B. Simpson  
President

Satish K. Tripathi  
Provost

# P R E F A C E

FROM  
JORGE V. JOSÉ  
*Vice President for Research*

I am very pleased to acknowledge all of you who have succeeded in bringing your scholarly and creative works to the printed page. In our second annual salute to UB Authors, we recognize recent works that have been translated into book form, and include for the first time works from our colleagues at Roswell Park Cancer Institute. To this community of University at Buffalo and Roswell Park Cancer Institute authors: we salute your accomplishment.

Your published books span a wide and rich range of disciplines, topics and genres – from humanities and the arts to public policy to the social, physical and biological and biomedical sciences. They include textbooks, volumes of poetry, and works of non-fiction. It is a true reflection of the breadth and depth of the expertise at a comprehensive university such as UB, and including our affiliated institutions such as Roswell Park Cancer Institute.

An important component of UB's academic enterprise is the publication of our faculty education, scholarship, research development and creative works. Book publication is a contribution to the wealth of knowledge that adds to our understanding of the world. Books not only add to the public domain, but contribute in an important way to the academic stature of the University at Buffalo.

We honor your determination and discipline in bringing your work to the printed page. May this celebration be an inspiration to others, and encourage you to even further success.

My heartfelt congratulations,

A handwritten signature in black ink that reads "Jorge José". The signature is written in a cursive, flowing style with a large initial "J".

# PREFACE

FROM

**DONALD L. TRUMP**

*President & CEO Professor of Oncology Roswell Park Cancer Institute*

For an investigator or a scholar, there is nothing more satisfying than seeing the culmination of an idea – an idea born in a series of thoughts and concepts – reach maturity and appear on the printed page. Each published work becomes a part of the foundation – the foundation of the edifice that is one's academic and intellectual life.

I congratulate each faculty member whose published book represents both personal and professional achievement. But more than this, I thank you for your contributions to the canon of research and scholarship that began with a flicker of an idea and now generates the power to illuminate and fire our minds and imaginations.

A handwritten signature in black ink, reading "Donald L. Trump". The signature is written in a cursive, flowing style with a large, sweeping initial "D".

# OPINIONS ON UB AUTHORS WORK

*The American Campaign, US Presidential Campaigns and the National Vote* by James E. Campbell:

"The American Campaign is the best book ever written by a political scientist about presidential campaigns." - Bill Mayer, Northeastern University

*Between Citizen and State, An Introduction to the Corporation* by David E. Westbrook:

"In this brilliant and original book David Westbrook makes visible the diverse logics that organize actors even in settings such as the corporation where we might assume one single such logic. We can recognize this in a play. But the language of the law tends to flatten its own subject. In this author's hands, corporate law reveals its logical complexity."

- Sasikia Sassen, Columbia University and author of *Territory, Authority, Rights*

*Modern Histories of Crime & Punishment* edited by Markus D. Dubber and Lindsay Farmer

"This collection of highly original works explores the construction of criminal law discourse and its problematic relationship to the enterprise of state punishment. There are many scholars whose work intersects with this volume, but no other published collection on the history of substantive criminal law offers anything like the range and coherence put forth here."

- Jonathan Simon, Boalt Hall School of Law, UC Berkeley
