Additional comments.

Response
Smart TV for streaming
notetaking - hand written gaming - n/a audio/streaming - tv dining dollars - n/a
Television
Notebook and handwriting
I don't use electronic devices for notetaking.
Xbox
Notetaking: Notebooks and Pen or Pencil
Smart TV
Hand write class notes
I do not participate in the other things
I like to hand write my notes
notebook
I take notes by hand
No device for note taking, Checking weather and forecast.
Take notes with pen and paper, I use a PS4 and xbox one for gaming, and I use my laptop for scientific computing.
My xbox 360
gaming systems.
All "other" = does not apply

shopping
note taking done by hand
I often take notes in class by hand in a notebook.
notebook
roku for video streaming
xbox
I take notes using my notebook.
Paper
Use pen and paper for glass, usually don't game
I write notes. I go to 1Capen for adding campus cash
Notetaking during class--> Pen and paper
Use paper and pen for note taking, use gaming devices for gaming (Wii, Nintendo Switch)
When I take notes I hand write them.
written notes
I mostly write my notes in class I use a firestick and TV for movies, videos, shows, etc
For taking notes I use paper and pen.
Watch movies and shows on television
Use home console
Video streaming- firestick, gaming- xbox one
I use a PS4 for gaming
Notebook for in class notes

Take notes by hand, use tv for gaming with ps 4

I still take notes with a pen and paper.

I use my firestick for streaming

I don't game. I take notes by writing it on paper

Online student so some items don't apply to me, such as note taking during class

Notebook Personal

Paper

I use the Amazon fire stick for streaming

xbox one

Other denotes PlayStation 4

For note taking, I do handwritten notes in a notebook. It is easier for me. For web browsing and visiting MYUB or other UB Websites, I use my phone and laptop equally, so I think that questions need to be changed. I cannot select both. For using social media, again, both laptop and phone equally. For gaming, my consoles and phone equally. For audio/video streaming, I use both my phone and gaming consoles - Phone for music, gaming consoles for streaming. You need to reconsider that people may use multiple devices, possibly add a section that says "Combination - Please Specify" or "Multiple Devices - Please Specify".

When I add campus cash or dining dollars to my UB Card, I go directly to the card office as well. I do not like loading a card with money online, it does not feel secure.

Print outs

I take written notes

by hand

I do not take notes on a device
I do not game.

No gaming and stream with fire stick tv

I use notebook for notes.

In class clickers
Audio/Video streaming (smartTV)
Good old fashioned notebook
Smart TV
Xbox for gaming Amazon fire TV stick for audio/video streaming Checking email
I use a notebook for note taking primarily

I take notes with a notebook. I also mostly use the Cybrary computers for my printing needs.
I use a regular notebook for note-taking in class, and I don't do any gaming.
Write down notes in notebook
I use paper and pen for notetaking.
Notebook for taking notes
give me the gift card now
PS4
PS4
Paper and pen, Game console
I use my Xbox on the tv for games and I hand write notes
Notes in a notebook handwritten
This portion of the survey was really stupid - why didn't the columns autofill with the devices I selected previously? Also, it stupidly made me scroll to view all columns except for the first two. Make your surveys easier to take, and don't trust that everyone scrolled to view all the columns for this question... i know i picked the easiest answer, not necessarily the correct one.
Console
Gaming: Xbox

Game console
Reading
notebook, ps4
I take notes on paper in class and do not play computer games
For note taking, I typically write down notes with a paper and pen. For streaming movies and TV shows, I usually watch them on my TV at home through Netflix, etc
I take notes with pen and a notebook during class
Have a iPhone and a android phone and a blackberry classic and 2 windows laptop, 1 MacBook and 1 Chromebook.
I prefer using the computers in the capen library for most of my work and web browsing becasue they prompt a working space. Despite the few times they go off abruptly, they are still convienent in use. For smaller tasks my phone is good enough for.
N/A
1. Notebook 2. Xbox 3. I don't
I take notes on paper
Note taking on paper
Knowing where buildings are if I already didn't know
Practically everything
Notebook for note taking
I take notes on paper. I hate typing notes in class. I usually create exam cheat-sheets on my laptop.
Used to email others
I've never used campus cash or dining dollars.
Xbox for gaming
For note taking, I usually print then handwrite class notes. For gaming, I usually use a PlayStation or Xbox.

For note taking old pen and paper

Use pen and paper to take notes;don't game; use a television to watch stuff with FireStick

Notebooks

I don't use technology for note-taking in class

Regular note book

Work.

Xbox One Console

Software development and virtual machine interactions

I do not use electronics for note-taking. I use pen and paper. I use the desktops on campus to do most of my class work.

Anything that I selected "other" for are activities that I don't participate in (ex. gaming, adding campus cash)

Comments stated other are either not in use or handwritten.

I don't game. Also I am a transfer student and I have no idea where I can find out info on activities and events. I usually find them on bulletin boards, but would like to receive emails.

I write my notes by hand. For gaming I play on consoles and my personal computer (both laptop and desktop).

Notebook for note taking

Note taking is most optimal on paper using handwritten techniques

Hand note taking.

Any misc.

Pen and paper for taking notes.

Printing

Others = notebooks

Handwritten Notebook

notebook
For notetaking during class I find it best to use a notebook and a personal laptop. I use an Xbox console for gaming during spare time. (I do not have dining dollars or campus cash). I believe laptops are extremely vital for college use.
Take notes by hand
Note taking is done via paper and pencil
Research
I usually write my notes in my notebook.

No smartphone
I use another similar emergency app
Ambivalence
have never heard of it before

No space in my phone

Not really applicable to online students

Didn't know what it was.

It seems gimmicky and gives the University too much of my personal information. I'm an adult and can take care of myself.

I don't know what it is

have not heard of it

i tried looking it up in the play store, but it wasnt there

Forgot it was a thing

I don't like the idea that it can access my location

Not sure what it's for. Also, I don't party or drink.

online student, not on campus

never heard of it

What is this? I don't even know

I do not believe it is necessary for me.

Whats that

Find it interesting but

Doesn't seem like something I need living off campus

can't find it on android market

dont have room on my cell phone

Not enough room on my phone for more apps

I don't have room on my phone

No need rarely on campus
I dont know what it is
Don't know what that is
Not on campus often
no need to at the moment, maybe in the future
Windows phone, no app?
I don't live on campus and only come once a week or so for one class (my other class is online)
Idk
I'm lazy
remote student
Creepy, feels too "police-state"-y
My camera on my phone doesn't work, and I wasn't able to find the app on apple store
I have a similar app for Sprint customers
haven't gotten around to seeing if it is useful
i dont know what it is
I dont rave or have friends that do that
I didn't care enough to download it.
i dont have a phone
I've never even heard of it until now
Kinda lazy to try it
the link does not work

No space on my phone for the app
never heard of it
No Smartphone
h
never known about it
Too many apps - integrate it into the regular UB app
I don't own a smart phone or compatible tablet
i don't live on campus or spend much time on campus so i don't think its useful for me but i think its great for ppl on campus!
i dont have a smartphone
I dont know what that is
I don't think I need it as of now

| I would prefer not to need my |
| No smartphone |
| Browse memes, but apart from that I would want to use it less. |
| Notes |

Online student
Technology should not be used in class.
I do not want to use smart phones or tablets in classes.
I do know, it is applicable, but I don't care.
I would not like to use my smartphone or tablet for classroom purposes. I SHOULD NOT BE REQUIRED TO OWN ONE TO BE A STUDENT AT UB.
Smartphones should not be used in class.
I have no desire to utilize these devices in class
none
None
Social media, Music
I wouldn't!
To reference online textbooks/ notes
Taking class notes on the go when traveling.
I
I actively do not want to use my smartphone in class.
If anything, I'd rather not rely too much on technology during class because it has the tendency to glitch or lose wifi connection, which can inhibit my learning experience, eat up class time, and prevent me from properly submitting assignments.
do not add requirements for cell devices. some people dont have them. I hate relying on mine. its nice as an option sometimes but it should not be the goal to use this in class.
Produce drawings
I don't want smartphones or tablets implemented this way. It will make classes less accessible to those who can't afford those devices.
My phone is not reliable

|		
To take photos / videos in labs to understand the process of certain experiments. Also to take pictures of notes on boards in situations where there is not enough time to take down notes.		
web surfing to know something I couldn't understand from lecture, or to search interesting concepts or things or people who are mentioned in lecture, bookmarking important things		
don't need to use my phone/tablet in class.		
I don't attend classes. I am a TA and do not allow students to use mobile phones/smart phones during recitation and lab mainly due to safety reasons (can't use mobile devices in chemistry labs).		
casting projector onto screen closer to me that is easier to enlarge		
Nothing		
I would like to not use a smartphone or tablet in class. I hate those in class app requirements. They always don't work, or the teacher does not give enough time so I get the answer wrong, when I would have gotten it right.		
Most of my classes are discussion based therefore I'd rather not use my cellphone.		
I don't wan to use my smartphone/tablet in class. I don't want other people to use them either, it's distracting and allows for further distraction.		
Accessing textbook and other class materials		
None		
As an architecture student I don't really need to use my phone in class		
I use excel and powerpoint.		
I would rather not have to use my smartphone during class - apps are often unreliable and more of a pain than using a $10 clicker for a few classes		
Unless the class is centered around phones or software, phones should NOT be used in class.		
checking black board for due dates and grades		
use pen and paper in class computers are a distraction		
All professors should allow students to use laptops without the professor assuming they are doing something else on it		
Attendance		
when my macbook pro is not work!

| Response |
|---|
| the iclicker techonolgy should have an app on smartphones that students can use so that they do not have to purchase expensive iclicker devices. |
| graded in class questions |
| graded questions |
| clickers are expensive and unnecessary |
| Taking quizzes outside of class |
| Only used in one class many years ago so I don't remmeber |
| Not all my teachers take attendance because you can use top hat from anywhere and no one does in class homework problems on clickers. |
| clickers are not that useful in class. i dont see the point |
| Most professors give paper tests |
| m |
| Extra Credit Questions |
| Graded questions part way through lecture about what we learned so far |
| I used Iclicker. |
| Surface laptop |
| I don't like these technologies because all it does is required me to purchase more items or subscriptions for class when I'm already struggling to pay for everything else. |
| Pop quiz questions, and example practice questions |
| My professors have not used response systems or clickers. |
| Answering graded questions in class |
| The standalone clicker was used at my old school, and Top Hat was used here |

quick multiple choice questions per class for .5 points
I believe classroom response and clicker technology is inappropriate for use in classrooms. I disapprove of professors doing this. For example, many professors do not allow enough response time.
Encourage the use of Piazza instead of Top hat, it's basically the same but FREE
I dislike paying for the clicker services.
Lecture notes in class
PHY 107 iclicker
Answering graded questions in class
Most work is done on the computer
Extra credit questions
Did not use for homework assignments
For question 19.: I don't prefer either, I find both of them intrusive, not helpful, and not worth paying extra money to use.
Participation grade
participation questions
Grades assignments
Answering individual graded questions per lecture to check understanding
none
participation
I'm simply going to put this here because I don't know where else I'll get to say it. I hate the fact that we have to pay a ludicrous amount of money to get a physical clicker or to get the technology to use our phones as clickers.   Make a standardized UB clicker system.   Please.

In my chemistry class, we've been using an app called Chem101, where we answer questions--it's basically to get a feel for our overall understanding of the material we've been learning about and also to take attendance.

I can't really think of any

In class, i would prefer using the phone responses to these instructions because its 2018. i believe we should move from the older clicker system but however to favour other with phones that are not fast enough it is then convininet.

I do not prefer "Clicker" I found them to be useless. (inconvenient, timewasting, uninformative)

Graded questions

Clickers are expensive and super stupid.

I dislike the randomness at which classes will use these software, especially since they both have cost-based subscriptions that depend on how long you (unknowingly) intend to use them. We should either standardize on one of them (or something else) or make them both cheaper (or cost-free) so that students don't end up wasting money (either by purchasing multiple short-term subscriptions or a single long-term subscription and under- or over-estimating their use of these tools respectively).

No online quizzes/tests, nor in class homework assignments. But graded participation, through answering questions

Graded questions and surveys

graded questions

Graded clicker questions

my clicker experience referenced is from undergraduate classes taken 12-14 years ago

Participation, and graded questions in class

Graded questions to review work

Also graded questions during lecture.

Graded questions.

Top Hat always seemed a Melfunction in Dr. Jungquist's class

We used TurningPoint in Gross Anatomy and preferred it to Top Hat.

I am never able to complete these tophat assignments because my lack of laptop/smartphone. My grade has suffered as a result and students who are not present on campus get accounted for. I do have strong opinions

|	
about how this type of software is certainly not bettering the students or teaching self accountability.	
I have not used any such services while at UB, only at Canisius College in 2009.	
I don't like tophat because they don't have a free option. There has to be more options that this University can utilize.	
Graded in-class questions	
N/A	
taking audience poll for a change in class.	
That last question was confusing. My instructor uses a projector and I follow along on my phone. Top HAt is awesome and its a shame I had to wait until my last semester to use it	
We should not have to pay for this resource!	
Please encourage 1 system, it's too costly for students to have 3 different homework systems just for one semester	
used for graded questions during lecture	
Frequently lost points in class because there's no signal in knox and I couldn't send my clicker responses. Had to screenshot everything and send it to the teacher to get my points back. Clickers are dumb.

| Bus |
| Just googled it |

Created using EFM

| To do list on UB website for incoming dental students |
| Ublearns announcement |
| Advisor |
| My previous college did so I figured UB would as well |
| i looked it up myself |
| Looked on google |
| Email |
| My other college offered free software so I looked to see if ub did as well |
| Best Buy employee |
| I searched it up and I found out on the website |
| Email |
| link from ISSS email |
| Word of mouth |
| I researched on my own |
| older siblings who went to UB |
| I just google and find the information |
| employed at ubit |
| My old university used to provide them so I searched for free software which UB provides. |
| UB Bookstore |
| google |
| I've never seen this flyer |

At orientation
I googled it
Browsing buffalo.edu
Email
I assumed UB offered software like most self-respecting universities
My mom told me her uni offered software when she was in school, so I looked it up.
My previous school did
sister
Looked it up myself. Many universities provide these.
I don't remember
Flyer in lecture hall
I can't remember how I found out about it.
I googled it
Most schools do, so I googled it from UB's webpage
googling UB (software name)
SUNY
Most colleges have it, so I assumed UB would.
Family
friends
I figured
Exploration of my available resources - all students should be encouraged to do this.

Knew from attending undergrad here		
assumed because my last college did and this one cost more money		
I found it on UB website on my own

| !or as big as this school is and the sheer number of people logging on and off of the wifi it is remarkable how few issues I have keep up the good work! They say when something is broken people notice and complain but when it's working as it should no one says anything. Well I'm saying good job! |
| I do not want housing information. Why is there not a "no" button. And for number 29: I prefer no social media??? |
| Text is the most viable form of communication and the highest chance of students obtaining important information |
| once the printers weren't working this semester for 20 minutes and I was never notified. |
| Email is the most accesible and easily organized to receive any information from the university |
| Everyone has a phone and it's always on them. Use it |
| Text messaging are perfect for important things like school closing or bus delays that directly affects daily routine. |
| No social media please |
| Any kind of updates or news |
| General Announcement |
| Emails usually provide more information than a text and therefore more appropriate |
| Campus events |
| Anything else |
| Product Availability |
| none |
| give me the gift card please |
| The ones that I marked as preferred on a mobile device--it'd honestly work just fine for me to receive messages about those through email, as well. I'm just more likely to check my phone for emergencies before I check my email (though I check it pretty frequently) |

N/A			
if something is of immediate concern to most students then it should be thru UBAlert or Text so everyone gets it quick, but also email. For lower urgency things email should suffice.			
UB events			
If UBIT alerts relay all communication through texts it would be awesome but only critical and schedule breaking emergencies or service or building shutdown should include that.			
Events update			
Technology gets invasive. I feel most comfortable limiting communication from the university to email.			
I put 'twitter' for all things I don't want to hear about			
Misc.			
no other			
just text me			
Only method provided			
I don't use social media (this is also why question 29 is blank).			
class cancellation should be an alert via text. Nobody likes getting up for their 8 AM and class being cancelled. Checking your email is not a priority early in the morning, especially when getting out of bed is so difficult in the colder and darker months.			
For mobile devices, there should be a quick glace option rather than have to sign in all the time as a lot of mobile devices require to sign in every time and does not remember the login id, it becomes inconvenient in the moment of a hurry.			
For number 29 please note I have not used ANY of these social media for UB related things, but there's not an option for that.

Additional comments.

Response
nothing useful is ever captioned. ever. captioning is slow to get off the ground for my online course material every semester, is at times inaccurate, and annoying to get set up.
When I try to log onto my account at a library location. It will just stay in a black screen saying something about "another port". I can't do my homework then. Also, sometimes it just logs me out for no reason and kicks me off for hours at a time.
I don't think I understand the question, given some of the listed focus topics.
