

Student Person Number: _____

CDSE Dissertation Approval Form

Each committee member will indicate their approval of the dissertation in one of three ways:

1. No changes are required.
2. Changes are requested but the committee member acknowledges that the advisor will ensure the changes are made and they do not require seeing the final dissertation.
3. Changes are requested and the committee member will review the final dissertation.

In the third case, that committee member must contact the Director of Graduate Studies directly to approve that the changes have been made.

The Director of Graduate Studies will NOT sign the M-Form until this step is completed.
