

Student Person Number: _____

CDSE Ph.D. Proposal Form

No later than the end of the FIFTH SEMESTER in the CDSE Ph.D. program, the student must complete a formal proposal to his/her Ph.D. committee. The proposal should include a substantial written document and a presentation. It is expected that a large portion of the Ph.D. research has been completed and that a detailed completion plan has been made.

By signing this form, the committee is indicating their approval of the student's proposal. If the committee requires any augmentation of the student's plan, they may record it at the back of this form. The completed and signed form should be submitted to the CDSE Director of Graduate Studies.
