The NIH proposes to establish core centers that are part of an integrated and existing program of nutrition and/or obesity research. The Nutrition Obesity Research Centers (NORC) program is designed to support and enhance the national research effort in nutrition and obesity. NORCs support three primary research-related activities: Research Core services, a Pilot and Feasibility (P and F) program, and an Enrichment program. All activities pursued by Nutrition Obesity Research Centers are designed to enhance the efficiency, productivity, effectiveness and multidisciplinary nature of research in nutrition and obesity. Review the Solicitation.

**Required Documents**
- Title of proposed NORC
- Name of PI and key personnel, with departmental affiliations
- Participating institution(s)
- Brief summary of the research focus or scientific theme(s) of the NORC and the need for a NORC to support the investigators in the research base (1 page max).
- Current NIH Biosketch of PI

**Funding**
- Up to $750,000 direct costs per year for up to five years.

**Deadlines**
- Internal Competition – 6/30/2021
- LOI (optional) – 9/20/2021
- Full Proposal Due – 10/20/2021

**Number of Applications**
- One application per institution

**Respond**
To submit a proposal in response to this limited competition, please return the required document(s) noted above as one PDF to ovpr.limitedsubmission@research.buffalo.edu by 5:00 pm per the internal deadline.

**For More Information:** Please contact ovpr.limitedsubmission@research.buffalo.edu.
