

*Standard Operating Procedure*  
for  
*Laboratory Safety*

1.0 PURPOSE

This SOP describes the procedures used to ensure Laboratory Safety in the Core Facilities.

2.0 SCOPE

This SOP will be used by all Core Directors and their personnel.

3.0 PROCEDURE

- 3.1 Core Directors will ensure that all personnel are familiar with all appropriate Biohazard, Chemical Hygiene and Radiation issues for all procedures carried out in the laboratory. All personnel will complete their initial and annual Biosafety and Radiation training as required by UB for personnel using chemicals, biologicals and radioactive materials as needed (<http://www.facilities-buffalo.org/Departments/ehs/SafetyPrograms/LaboratorySafety>). All questions on potential hazards will be directed to UB Environmental Health and Safety (829-3301).
